

Sol-M® Luer Lock Syringes

- Low Dead Space (LDS) syringes minimize "dead space", which is the area within the syringe that retains medication even after it has been injected. Minimizing this "dead space" improves the efficiency of medication delivery by reducing the amount of medication wasted with every administration
- LDS Syringes increase the number of doses from each vial
- High-transparency barrel to easily visualize contents
- Silicone lubrication ensures smooth plunger movement
- Luer lock syringe available in a wide range of sizes and connection combinations
- Safe plunger backstop prevents accidental withdrawal of plunger
- Individually packaged

Item #	Description	Qty
V0201 A	Sol-M® 1ml Low Dead Space Luer Lock Syringe (without needle)	100
V0203	3ml Luer Lock Syringe (without needle)	100

Sol-Care® Safety Needle

- Sol-Care™ Safety Needle is a single use, standard hypodermic needle with a protective arm that is used to enclose the needle after use to protect the healthcare professionals from needlestick injury
- In the activated position, the protective arm guards against accidental needle stick during handling and disposal of the used needle/syringe combination
- Two options for protective arm activation: hard surface activation and thumb activation
- Simple one-handed safety shield mechanism
- Individually packaged

Item #	Description	Qty
V0205 B	Adult Needle 1" (Adult)	100
V0206	Safety Needle 1-1/2" (For Higher BMI Population)	100
V0207	Safety Needle 5/8" (Adolescents/Infant)	100

Venting Needle, 20 gauge

- Sterile filtered venting needle designed for use by pharmacists and other specialists to evacuate drug containers during medication preparation and delivery
- Can be used with any vial or bottle
- 0.2 micron hydrophobic filter yellow transfer needle is compact and easy-to-handle
- 20 gauge x 1-1/2" stainless steel non-coring needle easily penetrates all stoppers with minimum risk of damage

Item #	Qty
18955 C	25

16G Two-Fer Needles, Sterile

- Thin-walled stainless steel needle glued into a vented luer lock hub using UV-cured adhesive
- Functions as both a high-efficiency, non-curing needle and an easy-to-use venting device
- Hubs are colour coded for identification
- Dual purpose needle - transfer liquids into closed vials without over pressurization of vial, transfers high-volume liquids using pumps and repeating syringes and withdraws solution from vials without creating negative pressure

Item #	Length	Qty	Colour
19003 D	1"	100/pack	Green
16004 E	1/2"	100/pack	Purple
