

Seringues Sol-M® à Verrou Luer **A**

- Espace mort minimal (LDS) : réduit le médicament résiduel après injection, augmentant le nombre de doses par flacon
- Canon haute transparence pour visualiser le contenu
- Lubrification silicone pour un mouvement fluide du piston
- Large gamme de tailles et raccords disponibles
- Arrêt de plongeur prévenant le retrait accidentel
- Emballage individuel

N° Art.	Description	Qté
V0201 A	Sol-M® 1 mL Seringue Verrou Luer LDS (sans aiguille)	100
V0203	Seringue Verrou Luer 3 mL (sans aiguille)	100

Aiguille de Sécurité Sol-Care® **B**

- Bras protecteur qui enferme l'aiguille après usage — protège contre les piqûres accidentelles
- Deux modes d'activation : surface dure ou pouce
- Usage unique · Emballage individuel

N° Art.	Description	Qté
V0205	Aiguille Adulte 1"	100
V0206	Aiguille 1-½" (IMC élevé)	100
V0207	Aiguille 5/8" (adolescents/nourrissons)	100

Aiguille de Ventilation, 20 gauge **C**

- Filtrée stérile — évacue les médicaments des récipients lors de la préparation
- Filtre hydrophobe 0,2 micron compact et facile à manipuler
- Aiguille 20G x ½" non carotteuse, pénètre facilement tous les bouchons

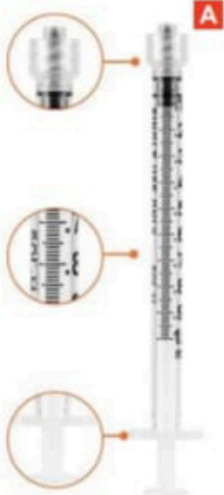

N° Art.	Qté
18955 C	25

Aiguilles Stériles 16G Two-Fer **DE**

- Aiguille à paroi mince collée sur moyeu verrou Luer par adhésif UV
- Double usage : transfère liquides dans flacons fermés ET aspire sans pression négative
- Filtre hydrophobe empêche les matières toxiques aérosolisées de sortir
- Moyeux codés couleur

N° Art.	Longueur	Qté	Couleur
19003 D	1"	100/boîte	Vert
16004 E	½"	100/boîte	Mauve

16G Two-Fer Needles, Sterile

- Thin-walled stainless steel needle glued into a vented Luer lock hub using UV-cured adhesive
- Functions as both a high-efficiency, non-curing needle and an easy-to-use venting device
- Hubs are colour coded for identification
- Dual purpose needle - transfer liquids into closed vials without over pressurization of vial, transfers high-volume liquids using pumps and repeating syringes and withdraw solution from vials without creating negative pressure

Item #	Length	Qty	Colour
19003 D	1"	100/pack	Green
16004 E	1/2"	100/pack	Purple

Venting Needle, 20 gauge

- Sterile filtered venting needle designed for use by pharmacists and other specialists to evacuate drug containers during medication preparation and delivery
- Can be used with any vial or bottle
- 0.2 micron hydrophobic filter yellow transfer needle is compact and easy-to-handle
- 20 gauge x 1-1/2" stainless steel non-coring needle easily penetrates all stoppers with minimum risk of damage

Item #	Qty
18955 C	25
